Tech It Out!

At the Yakama Nation Library

Having trouble choosing a class?

Microsoft Imagine Academy (Free)

Learn technology skills online through the Microsoft IT Academy. Courses range from basic digital literacy to advanced IT skills. This free program is available to all Washington State residents.

Publisher 2016

Learn how to create your own flyers, greeting cards (Mother's day cards), & graduation announcements with Microsoft Office Publisher 2016. With this program you can insert your own photos and graphics to personalize your cards, announcements or flyers. This class is a 1 day class. Please feel free to bring your own photos.

Microsoft Excel I

Microsoft Excel is a powerful spreadsheet application program for Windows XP or later. This course will introduce you to working with spreadsheets, and show you how to produce interesting charts. The workbook leads you step-by-step through all of the fundamental skills you will need to use Excel 2016 effectively.

Girls Who Code is a nonprofit organization which aims to support and increase the number of women in computer science. The organization is working to close the gender gap in technology and change the image of what a programmer looks like and does. This is recommended for girls in grades 6th - 12th.

- In the 3-hour **Microsoft Office Courses** you will also utilize the **Gmetrix** program where you will train to become Certified in Microsoft Office 2016.
